If the Company is not required by law to disclose the CPNI or if the intended use does not fall within one of the carve outs, the Company will first obtain the customer’s consent prior to using CPNI.

However, Carrier Network Solutions cannot guarantee that these practices will prevent every unauthorized attempt to access, use, or disclose personally identifiable information. Therefore:

 1. When the customer has pre-established a password.

3. When Carrier Network Solutions calls the customer's telephone number of record and discusses the information with the party initially identified by customer when service was initiated.
- B. Carrier Network Solutions may use CPNI for the following purposes:
- To initiate, render, maintain, repair, bill and collect for services;
 - To protect its property rights; or to protect its subscribers or other carriers from fraudulent, abusive, or the unlawful use of, or subscription to, such services;

4. Prior to allowing access to Customers' individually identifiable CPNI to Carrier Network Solutions's joint venturers or independent contractors, Carrier Network Solutions will require, in order to safeguard that information, their entry into both confidentiality agreements that ensure compliance with this Statement and shall obtain opt-in consent from a customer prior to disclosing the information. In addition, Carrier Network Solutions requires all outside Dealers and Agents to acknowledge and certify that they may only use CPNI for the purpose for which that information has been provided.
 5. Carrier Network Solutions requires express written authorization from the customer prior to dispensing CPNI to new carriers, except as otherwise required by law.
 6. Carrier Network Solutions does not market, share or otherwise sell CPNI information to any third party.
